I'm Home Program

The I'm Home Program helps parents to prepare their 10-12 year old child to move successfully from a before and after school program to safe, home-based self-care.

I'm Home is offered at various London Public Library locations in partnership with London Children's Connection. Each session is full of easy to follow guidelines for parents and children to help them set up their own rules, in a fair and positive manner.

The I'm Home Program:

- helps parents to determine if their 10 - 12 year old child is ready for safe self-care, before and after school
- provides practical information, tools and skills that help older children to be safe, when alone at home
- helps children to be confident and capable of looking after themselves at home, for short time periods

Fee: \$35.00 per child due at registration.

Includes resource manuals for parents and children.

Financial assistance may be available, please speak to Library staff.

Kids - Are you ready to be alone at home?

Come to the I'm Home Program and learn how to:

- respond to a stranger
- deal with a bully
- be safe walking to and from school
- follow important house rules
- handle basic first aid and home emergency situations
- be confident in yourself and feel safe
....and MORE!

Feedback from I'm Home Participants

Children are saying...

- *I liked talking about strangers because I didn't know what to do, but now I know.*
- *I loved it 'cause it helped me overcome my fear of staying home alone.*

Parents are saying...

- *I enjoyed talking with other parents and openly sharing our concerns.*
- *I know now what needs to be discussed to help my daughter feel confident staying home.*

Parents

Are you wondering if your child is prepared for the added responsibility of being home alone?

The I'm Home Program offers parents:

- The knowledge they have carefully prepared their child to be safe when alone at home.
- Confidence in having clear, reasonable house rules that are being followed responsibly
- Pride in their child's ability to experience positive independence
- The opportunity to meet other parents to discuss concerns and share experiences.
- A link to a webinar with valuable information.
